

Morcon Unfolds the Truth...

Some industry leading interfolds are actually 1-Ply quarter fold napkins. Are these napkins really the best option for your business?

Our line of Interfolds offer:

DISPENSIBILITY

ABSORBENCY

STRENGTH

SOFTNESS

- Our 2-Ply v-fold has the same folded footprint as the 1-Ply ¼ fold that industry leading competitors produce
- Our 2-Ply bonded manufacturing process eliminates the fold over
- Our 2-Ply offers more square inches of paper than the 1-Ply ¼ fold

"We had been buying the quarter fold interfold napkins for years. But after switching to Morcon's v-fold, we have reduced our costs without sacrificing quality. None of our customers unfolded the 1-ply quarter fold napkins, so dispensing a 2-ply v-fold makes great sense! 100% satisfied."

- Restaurant Owner, Philadelphia, PA
